

Free Listings

At the minute, all the listings on this new website are free.

Why?

Well, as this is a new website we need to get the ball rolling. We thought it'd be alot easier for people to try our service for free, rather than charging for it at this stage.

The website recieves LOTS of hits every single day, whilst we were looking at keywords, we found that most of the traffic coming to us is from people searching for cars for sale in Cornwall.

This means that you are targetting your ads at the people that matter the most, the people in your locality, the people in this great County we call Cornwall.

Cornish Auto is a new business venture but is already causing quite a stir when anybody finds out about it.

This website is good to advertise on for quite a number of reasons:

- The site is aimed at your potential buyer, in Cornwall, so there's no really long journeys for people looking on this site.
- We do all the running, advertising the site, letting people know, sending out letters etc (ofcourse if you like Cornish Auto, please do tell people you know)
- This in turn should help sell your vehicle faster
- Currently advertising is free and will be very cheap at £10 per month when the site goes to paid listings.

We aim to make Cornish Auto a force not to be reckoned with in Cornwall when it comes to advertising vehicles for sale.

We have many exciting developments coming your way. So please stay in touch and keep checking back.
